**DETAILED ACTION**

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-7, drawn to a dry powder pharmaceutical composition for inhalation therapy.

Group II, claim 12, drawn to a method of treatment or prophylaxis of respiratory disorders.

Group III, claims 14 and 15 drawn to an inhalation device containing therein a dry powder pharmaceutical composition.

Group IV, claims 16-21 drawn to a medicament pack.

Group V, claims 22 and 24, drawn to a method of improving stability performance in dry powder pharmaceutical compositions.

Group VI, claims 23 and 25, drawn to a method of eliminating or reducing the detrimental effect on fine particle dose experienced during storage of a dry powder pharmaceutical composition.

The inventions listed as Groups I-VI do not relate to a single general inventive Concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reason: the common technical feature in all groups is a dry powder pharmaceutical composition. Keller, et. al. (WO 00/28979) teach a dry powder pharmaceutical composition (see abstract).

Applicant is advised that in order for the reply to this requirement to be complete, it must include an election of the invention to be examined even if the requirement is traversed (37 CFR 1.143).
